Advisement Syllabus

An Advising Syllabus facilitates communication between advisor and advisee by defining expectations. In addition, it can bring consistency to advisement that extends over several years. For example, when we meet with freshmen we want to make them aware of pre-requisites and internships but we want to revisit this topic as they make progress through the program.

To learn more about the advantages of developing an advisement syllabus, read Tonya McKenna's "[Creating an Advising Syllabus](#)" (2006).

What might an academic advising syllabus contain?

- Contact information for advisor and department.
- A checklist of topics that should be discussed and revisited during the course of the student's academic career.
- Record dates when meetings occur.
- List outcomes of successful completion of program or degree.
- A statement identifying goals of advisement might include
- Learn requirements for General Education and Major Program Requirements.
- Access your advisor when needed each semester.
- Develop an educational plan for successfully achieving academic, career, and personal goals; select courses each semester to progress toward fulfilling that educational plan.
- Make use of campus resources to fulfill academic, career, and personal goals. List tools and resources that students can make use of to ensure they thrive. This might include:
 - [Academic Support Services](#)
